

Remarks at the Vision One91 Groundbreaking
Superintendent Joe Gothard
May 28, 2015

Welcome

Today's groundbreaking ceremony is the kick off for construction at Burnsville High School.

This is the first physical change that shows Vision One91 is becoming a reality.

Space is being added to Burnsville High School so that all ninth graders can attend, beginning in Fall 2016, and benefit from a comprehensive four-year high school experience.

A lot will be happening over the next 16 months as we implement Vision One91,

It's exciting to begin making Vision One91 a reality with many changes coming outside and inside our schools.

Some of the changes will be obvious -- like this addition to our high school.

Also this summer, remodeling will take place at Diamondhead Education Center to expand learning spaces for our youngest and oldest learners.

Other changes are less obvious. Teams of teachers, principals and administrators have been meeting for several months to develop exciting new programming for students in early childhood, elementary, middle school and high school. Technology planning is also underway.

Our goal is to redesign our district to meet the needs of today's learners and ensure each student is real-world ready.

We are excited about what Vision One91 will mean to our students, schools and district. The future looks bright as we kick off this vision for our redesigned school district.

Look for ongoing updates about learning, technology and construction on the district website at www.isd191.org. Click on the Vision One91 gold medallion to easily access information.
